The Honorable Robert E. Whalen  
Deputy Commissioner of the  
Department of Safety  
John O. Morton Building  
Concord, New Hampshire 03301

Dear Bob:

I have your memorandum dated January 27, 1976 inquiring whether the Department of Safety is bound by the provision of 1975 Laws 504:1, VI (b), that any Troop A substation building constructed under the authority of that appropriation "be located within 5 miles of the junction of routes 101 and 125." It is my opinion that if any such building is built it must be located within the area so described.

Yours sincerely,

David H. Souter  
Attorney General
